

The full-featured, portable meeting room projector

Flexible, upgradeable, and feature-rich – all at an affordable price

- An affordable projector that maximizes budgets
- Optional expansion module for increased data, video and control connectivity
- Modular design extends projector lifespan offering upgrade potential
- Easy to use and operate
- Affordable enough to buy in quantity for a standard projector platform in every room

- Satisfies the needs of multiple users – feature-rich for the small meeting room, portable for the road

- Integrated high-end features and advanced module connectivity

- Easily mobile – less than six-pounds

- Integrated Faroudja™ technology featuring DCDi™, for smooth and natural-looking images

- 2000 lumens project brilliant images in any environment

FULL-FEATURED AFFORDABLE PROJECTION

The InFocus® LP™500 is the brilliant projector solution for cost-conscious buyers. Extremely affordable, this multi-purpose projector stretches budget dollars by exceeding the needs of both conference room and mobile users. And, this economical solution boasts a modular design with upgrade potential, which protects your investment from obsolescence. Now, with the LP500, technology buyers can afford to standardize on industry-leading InFocus equipment – and apply the benefits to the bottom line.

DUAL-PURPOSE POWERHOUSE

The InFocus LP500 modular design allows buyers to save budget dollars by employing one projector to serve two needs. For the conference room that requires a bright image and multiple input options, the LP500 delivers. The base unit is full-featured for any small conference room and the expansion module snaps on to provide expanded data, video and audio connectivity. For the mobile user, the module easily detaches yielding a slimmed-down form factor that's ready to go. The unique design transforms the LP500 into a dual-purpose powerhouse – a single projector satisfies both conference room and mobile needs.

Modularity also extends the projector's lifespan by providing cost-effective upgrade potential. As InFocus introduces new features and technologies, additional modules can be purchased to expand the base unit – all at a fraction of the cost of buying a new projector. This efficient design lengthens the lifespan of your LP500, enabling you to standardize meeting rooms and campuses on a single platform.

IMPRESSIVE FEATURE SET

The LP500 features 2000 ANSI lumens of amazing image quality, so it's brilliant in any setting. Users will appreciate being able to walk into any room, regardless of lighting, and give a bright, multimedia presentation. The LP500 also has a unique lamp-saving solution because it offers two operating modes – standard and economy.

When in standard mode, the LP500 produces maximum brightness. For dimmer environments, the LP500 can be switched to economy mode, which yields fewer lumens and a cooler and quieter projector. Native SVGA resolution with digital scaling for VGA to XGA, the LP500 provides users with broad connectivity to data sources.

LP500™

Projection Distances/ Image Sizes

Distance to Screen	Min. Diagonal Image Size	Max. Diagonal Image Size
5 feet / 1.5 m	3.0 feet / 0.9 m	3.6 feet / 1.1 m
8 feet / 2.4 m	4.7 feet / 1.4 m	5.8 feet / 1.7 m
12 feet / 3.7 m	7.1 feet / 2.2 m	8.6 feet / 2.7 m
16 feet / 4.9 m	9.4 feet / 2.9 m	11.5 feet / 3.5 m
20 feet / 6.0 m	11.8 feet / 3.5 m	14.4 feet / 4.3 m
30 feet / 9.1 m	17.7 feet / 5.4 m	21.6 feet / 6.6 m

LP500 SPECIFICATIONS

- Native Resolution: SVGA (800 x 600)
- Display Technology: DLP™ by Texas Instruments 
- Input Sources (standard): Computer (MI-D/A), Video (S-Video and RCA), Audio (3.5 mm Mini jack)
- Input Sources (w/module): Computer 1 (MI-D/A with 3.5 mm Audio), Computer 2 (VESA with 3.5 mm Audio), Video 1 (S-Video), Video 2 (RCA), Video 3 (Component RCA), Stereo Audio (RCA), RS-232, hard wired remote
- Output Sources (w/module): Monitor, Video, Audio
- Computer Compatibility: VGA, SVGA, XGA, Macintosh, 1080i/720p HDTV
- Video Compatibility: Full NTSC, PAL, SECAM, PAL-N and PAL-M
- Brightness: 2000 ANSI lumens (standard mode), 1600 ANSI lumens (conservation mode)
- Brightness Uniformity: +30 /-40
- Contrast Ratio: 400:1 full on/full off
- Number of Colors: 16.7 million
- H-Synch Range: 25 - 91 kHz
- V-Synch Range: 50 - 85 Hz
- Dot Clock: 135 MHz digital, 160 MHz analog
- Lens Shift: None
- Digital Keystone Correction: +/-20 degrees
- Projection Lens: Manual zoom lens
- Throw Ratio: 1.2:1
- Minimum Projection Distance: 5' (1.5 m)
- Aspect Ratio: 4:3
- Image size (diagonal): 3' to 21.6' (0.9 m to 6.6 m)
- Projection Methods: Front/rear, desktop/ceiling
- Audio: 3.0 Watt stereo, mono speaker
- Control: On-board, hard cap micro switch or via standard remote
- Communication: RS-232 via expansion module
- Control: Via Menu
- Lamp Type: 270 Watt SHP
- Lamp Life: 2000 hours
- Dimensions (standard): 10.25" (W) x 3.34" (H) x 11" (L), 260 mm (W) x 85 mm (H) x 280 mm (L)
- Dimensions (w/module): 10.25" (W) x 3.34" (H) x 12" (L), 260 mm (W) x 85 mm (H) x 305 mm (L)
- Weight (standard): 5.7 pounds (2.6 kg)
- Weight (w/module): 6.5 pounds (2.9 kg)
- Power Consumption: 350 Watts
- Power Supply: 100V - 240V at 50 - 60 Hz
- Operating Temperature: 10° - 40° C (50° - 104° F)
- Menu Languages: English, Spanish, French, German, Japanese, Chinese, Korean, Portuguese
- Audible Noise: 39dB
- Approvals: UL, CSA, TUV, C Tick, NOM, FCC B, EN 55022, ICES-003
- Lamp Warranty: 90 days
- Warranty: Two-years parts and labor
- Ships Standard With: Soft Carry Case, Full Feature Remote, MI-D/A analog, Computer Cable with USB, Composite Video Cable, Audio Cable and Connectors, Power Cord, User Manuals
- Optional Accessories: Expansion Module, ATA Shipping Case, Deluxe Carry Case, Deluxe Travel Case, Digital Computer Cable, Digital/Analog Interface Card, Ceiling Mount Kit, Full-Feature LaserPro Remote Control, GyroMouse RF Remote, Executive Remote IR Receiver, Remote Point RF Remote with LaserPointer, PC Guardian Projector Cable Lock, 40"/50" Portable Projection Screen, 60" Deluxe Insta-Theatre Screen, 84" Pull-Down Screen, Replacement Lamp
