

LPTM530

InFocus[®] LPTM 530

The full-featured, portable meeting room projector

Flexible, upgradeable and feature-rich – all at an affordable price

- An affordable projector that maximizes technology budgets
- Expansion module for increased data, video and control connectivity
- Modular design extends projector lifespan offering upgrade potential
- Easy to use and operate, minimizing user training
- Affordable enough to buy in quantity for a standard platform in every room

LP530™

■ Satisfies the needs of multiple users – feature-rich for the small meeting room, portable for the road

■ Integrated high-end features and advanced module connectivity

■ Integrated Faroudja technology featuring DCDi™, for smooth and natural-looking images

■ 2000 lumens project brilliant images in any environment

■ Extremely mobile – less than six-pounds

THE BRILLIANT BUDGET SOLUTION

The InFocus® LP™ 530 is the brilliant projector solution for cost-conscious IT buyers. Extremely affordable, this multi-purpose projector stretches budget dollars by exceeding the needs of both conference room and mobile users. And, this economical solution has a module design with upgrade potential, which protects your investment from obsolescence. Now, with the LP530, technology buyers can afford to standardize on industry-leading InFocus equipment – and apply the benefits to the bottom line.

DUAL-PURPOSE POWERHOUSE

The InFocus LP530 modular design allows buyers to save budget dollars by employing one projector to serve two user needs. For the conference room that requires a bright image and multiple input options, the LP530 delivers. The base unit is full-featured for any small conference room and the expansion module snaps on to provide expanded data, video and audio connectivity. For the mobile user, the module easily detaches yielding a slimmed-down form factor that's ready to go. The unique design transforms the LP530 into a dual-purpose powerhouse – a single projector satisfies both conference room and mobile needs.

Modularity also extends the projector's lifespan by providing cost-effective upgrade potential. As InFocus introduces new features and technologies, additional modules can be purchased to expand the base unit – all at a fraction of the cost of buying a new projector. This efficient design lengthens the lifespan of your LP530, enabling you to standardize your meeting rooms on a single platform.

IMPRESSIVE FEATURE SET

The LP530 features 2000 ANSI lumens of amazing image quality, so it's brilliant in any setting. Users will appreciate being able to walk into any room, regardless of lighting, and give a bright, clear presentation. The LP530 has a unique lamp-saving solution because it offers two operating modes – standard and economy.

When in standard mode, the LP530 produces maximum brightness. For dimmer environments, the LP530 can be switched to economy mode, which yields fewer lumens and a cooler and quieter projector. Native XGA resolution with digital scaling for VGA to SXGA, the LP530 provides users with broad connectivity to data sources.

LP530™

INTEGRATED FAROUDJA VIDEO

With the LP530, InFocus is proud to introduce integrated video from Faroudja, a division of Sage Inc., the world leader in innovative high-performance video processing. Users will enjoy showing images that look smooth and natural thanks to Faroudja's proprietary Directional Correlational Deinterlacing, DCDi™ technology. In addition, Faroudja technology suppresses artifacts and provides the clearest image with features such as cross color suppression, per-pixel motion adaptive processing and patented film-mode.

LEADERSHIP BUILT ON QUALITY

InFocus Corporation is the worldwide leader in digital projection. That's why the most demanding businesses insist on InFocus for unquestionable reliability engineered into the most streamlined machine. The InFocus LP530 is an extremely affordable projector that employs state-of-the-art features. It also serves dual audiences and is uniquely upgradeable. The LP530 is the ideal solution for companies looking to get the most projector for the money.

Spare-in-the-Air, 7x24 Technical Support, ProXchange, Extended Warranties and Technology Upgrades are all part of our commitment to our products and our customers. For more information on service program details for your region, please visit www.infocus.com/service/service_offerings

LP530 SPECIFICATIONS

- Native Resolution: XGA (1024 x 768)
- Display Technology: DLP™ by Texas Instruments
- Input Sources (standard): Computer (MI-D/A), Video (S-Video and RCA), Audio (3.5mm Mini jack)
- Input Sources (w/module): Computer 1 (MI-D/A with 3.5 mm Audio), Computer 2 (VESA with 3.5 mm Audio), Video 1 (S-Video), Video 2 (RCA), Video 3 (Component RCA), Stereo Audio (RCA), RS-232, hard wired remote
- Output Sources (w/module): Monitor, Video, Audio
- Computer Compatibility: SXGA, XGA, SVGA, VGA, Macintosh, I1080i/720p HDTV
- Video Compatibility: Full NTSC, PAL, SECAM, PAL-N and PAL-M
- Brightness: 2000 ANSI Lumens (standard mode)
1600 ANSI Lumens (conservation mode)
- Brightness Uniformity: +30 / -40
- Contrast Ratio: 400:1 full on/full off
- Number of Colors: 16.7 million
- H-Synch Range: 25 - 91 kHz
- V-Synch Range: 50 - 85 Hz
- Dot Clock: 135 MHz Digital, 160 MHz Analog
- Lens Shift: None
- Digital Keystone Correction: +/- 20 degrees
- Projection Lens: Manual zoom lens
- Throw Ratio: 1.2:1
- Minimum Projection Distance: 5 ft. (1.5 m)
- Aspect Ratio: 4:3
- Image size (diagonal): 0.90 m to 3.6 m
- Projection Methods: Front/rear, desktop/ceiling
- Audio: 3.0 Watt stereo, mono speaker
- Control: On-board, hard cap micro switch or via standard remote
- Communication: RS-232 via expansion module
- Control: Via Menu
- Lamp Type: 270 Watt SHP
- Lamp Life: 2000 hours
- Dimensions (standard): 10.25" (W) x 3.34" (H) x 11" (L)
260 mm (W) x 85 mm (H) x 280 mm (L)
- Dimensions (w/module): 10.25" (W) x 3.34" (H) x 12" (L)
260 mm (W) x 85 mm (H) x 305 mm (L)
- Weight (standard): 5.7 pounds (2.6 kg)
- Weight (w/module): 6.5 pounds (2.9 kg)
- Power Consumption: 350 Watts
- Power Supply: 100V - 120V, 200V - 240V at 50 to 60 Hz
- Operating Temperature: 10° C to 40° C (50° - 104° F)
- Menu Languages: English, Spanish, French, German, Japanese, Chinese, Korean, Portuguese
- Audible Noise: 39dB
- Approvals: UL, CSA, TUV, C Tick, NOM, FCC A, EN 55022, ICES-003
- Lamp Warranty: 90-days
- Warranty: Two-years parts and labor
- Ships Standard With: Soft Carry Case, Full Feature Remote, MI-D/A analog, Computer Cable with USB, Composite Video Cable, Audio Cable and Connectors, Power Cord, User Manuals
- Optional Accessories: Expansion Module, ATA Shipping Case, Deluxe Carry Case, Deluxe Travel Case, Digital Computer Cable, Digital/Analog Interface Card, Ceiling Mount Kit, Full-Feature LaserPro Remote Control, GyroMouse RF Remote, Executive Remote IR Receiver HW-EXRCVR, Remote Point RF Remote with LaserPointer, PC Guardian Projector Cable Lock, 40"/50" Portable Projection Screen, 60" Deluxe Insta-Theatre Screen, 84" Pull-Down Screen, Replacement Lamp
