DP6500x

Simply designed to be shared.

Introducing a new way of thinking, the DP6500x delivers an innovative projector design that will change the way organizations share information. With color-coded connections and cables, any user can connect the projector in seconds. The keypad is grouped by function and simple to use – whether users want power, source selection or fine-tuning. And for further ease of operation, users can rely on intuitive, icon-based menus. Expanding usability, the standard case that ships with the projector makes this overall solution as easy to use as a shared resource. With slots labeled for each cable, anyone using the projector will know at a glance if anything is missing. A premium conference room projector, an efficient shared resource.

Fully equipped and loaded with options, the DP6500x incorporates cutting-edge technology with an exceptional conference room feature set making it the best choice for corporations to standardize on. With InFocus® ProjectorNet™ software compatibility, the DP6500x can be controlled over existing corporate networks allowing an IT helpdesk person to troubleshoot and control projector functions all from a single PC.

What's more, the DP6500x delivers twice the contrast ratio of other projectors in its class and yields sharp, colorful images with vivid Faroudja video, as well as cutting-edge technology upgrades like future wireless control through standard M1 connections, thereby extending the life of the investment. Innovative. Feature-rich. Simple-to-use. With the DP6500x, consider meetings accomplished.

DP6500x features include:

- Native XGA resolution (1024 x 768)
- Color-coded connections & cables
- Newly designed "toolbox" style carry case
- New, standardized keypad & menu system
- 2500 ANSI lumens
- 9.35 lbs/4.24 kg
- 800:1 contrast ratio full on/full off
- InFocus® ProjectorNet™ compatibility
- Digital keystone correction
- HDTV compatible (1080i/720p)
- 35dB for whisper-quiet operation
- Computer, audio, component video, S-Video, composite video inputs
- Manual zoom and focus lens
- 2000 hour lamp life
- Two years parts and labor warranty
- 90 days or 500 hours (whichever comes first) lamp warranty

VERSATILITY POWER PERFORMANCE connectivity

DP6860

High-end features and connectivity in an affordable, easy-to-install design. Perfect for anyone looking for a bright projector with on-board connectivity, the DP6860 offers increased brightness for InFocus Quality Video. A perfect addition to training facilities, large conference rooms and classrooms, the DP6860's feature set and 2800 ANSI lumens provide outstanding versatility. This projector works effortlessly on a cart and shines in a dedicated conference room, making it the perfect investment for the IT buyer who demands flexibility and the integrator who wants a bright, simple install. In addition, InFocus® ProjectorNet™ compatibility allows IT departments to manage the DP6860 over an existing corporate network from a single PC.

DP6860 features include:

- 2800 ANSI lumens
- Digital keystone correction
- Less than 40dB
- Analog and digital connectivity
- 14.1 lbs/6.4 kg
- 2 computer, 2 audio, component, S-Video, composite inputs
- InFocus ProjectorNet™ compatibility
- 2000 hour lamp life
- Two years parts and labor warranty
- 90 days or 500 hours (whichever comes first) lamp warranty

DP6155

Unsurpassed connectivity with Digital Visual Interface (DVI) makes the DP6155 an exceptional performer in meeting room and classroom environments. Feature-packed with high brightness, native XGA resolution, digital keystone correction, and a quiet operating level means projection in small- to mid-sized conference rooms are a snap. Multiple video and data inputs allow for seamless switching between presenters and media sources. What's more, the monitor loop-through feature enables the user to face their audience and view their presentation on screen simultaneously. The DP6155 is compatible with new InFocus® ProjectorNet™ software, allowing management of the projector over an existing network. High flexibility and solid performance at an affordable price make the DP6155 a smart choice for digital communication solutions.

DP6155 features include:

- 2000 ANSI lumens
- 7.5 lbs/3.4 kg
- DVI connectivity for emerging standards
- Less than 35dB
- 3 computer, 1 S-Video, 1 composite video and video audio input sources
- InFocus ProjectorNet compatibility
- Digital keystone correction
- 2000 hour lamp life
- Two years parts and labor warranty
- 90 days or 500 hours (whichever comes first) lamp warranty
